

GelPort®

Hand Access
Laparoscopic System

GelPort

Hand Access Laparoscopic System

GelSeal® Technology

Enables unlimited hand exchanges while maintaining pneumoperitoneum.

Accommodates trocar insertion for enhanced versatility.

Features a small profile, ideal for limited abdominal spaces.

Enabling Design

Offers unparalleled access, allowing for rapid dissection and mobilization of tissue.

Facilitates a minimally invasive Pfannenstiel approach to optimize advanced procedures.

Restores true tactile feedback to minimally invasive procedures.

Alexis® O Wound Protector-Retractor

Reduces superficial surgical site infection following colorectal surgeries.^{1,2}

Accommodates a range of incision sizes and abdominal wall thicknesses.

Simplifies extracorporeal resection and specimen retrieval.

Allows clear visualization of the wound margins.

Union of Exceptional Technologies

Provides 360 degrees of atraumatic retraction and protection^{1,2} for enhanced exposure of the surgical space.

Allows unrestricted access, promoting surgical speed and efficiency.
